

**Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service**

1. Introduction

This Privacy Notice tells you about information we, Circle Clinical Services Limited (CCSL) trade name Circle Integrated Care, collect and hold about you, what we do with it, how we will look after it and who we might share it with. It covers information we collect directly from you or receive from other individuals or organisations.

This Privacy Notice also sets out your rights in respect of your personal information, and how to exercise them. You can, for instance, seek access to your medical information, object to us using your information in particular ways and request rectification of any information which is inaccurate or deletion of information which is no longer required (subject to certain exceptions).

This notice does not provide exhaustive detail. However, we are happy to provide any additional information or explanation needed. If you would like further information about any of the matters in this Privacy Notice or have any other questions about how we collect, store or use your personal information, please contact the DPO using the details in Section 3 below.

We keep our privacy notice under regular review. This privacy notice was last reviewed in March 2020.

If you would like this notice in another format, such as large print or another language, please contact Circle's DPO.

2. Who we are and what we do

In this Privacy Notice we use "**we**" or "**us**" or "**our**" or "**CCSL**" to refer to Circle Clinical Services Limited, which is part of the Circle group of companies.

CCSL is a part of an independent sector hospital group providing NHS services. In accordance with a Contract between CCSL and Wolverhampton Clinical Commissioning Group (WCCG), CCSL is responsible for the delivery of adult community dermatology services on behalf of the Wolverhampton CCG. This service includes planning and monitoring health services from healthcare providers, such as local community providers and hospitals, to ensure the highest quality dermatology service. Under the Contract, CCSL is accountable for performance monitoring of the dermatology services, including correct referrals, timely discharge, appropriate treatments and clinical outcomes.

Circle Clinical Services Limited, the entity responsible for the Contract between Circle and Wolverhampton Clinical Commissioning Group is a Data Controller and a Data Processor under the terms of the EU General Data Protection Regulation (GDPR) and the Data Protection Act (2018). We are legally responsible for ensuring that all personal information that we process about you is done in compliance with data protection laws. All Data Controllers must notify the Information Commissioner's Office of all personal information processing activities. Our registration number is ZA213290 and our entry can be found in the Data Protection Register on the [Information Commissioner's Office website](#).

**Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service**

3. How to contact us

Circle has appointed a data protection officer (“DPO”). The DPO helps ensure that Circle complies with data protection law and acts as a contact point for all patients. You can contact our DPO by:

- Telephone: 0207 034 5250
- E-mail: dpo@circlehealth.co.uk
- Post: Data Protection Officer, 32 Welbeck Street, London, W1G 8EU.

4. Personal Information we hold about you

When we refer to personal data in this policy, we mean information that can or has the potential to identify you as an individual. When we refer to ‘processing’ your personal information, this covers any use of your personal information, including but not limited to accessing, storing and disseminating information. We may use “special categories of personal information” about you, such as information relating to your physical and mental health.

As a patient of Circle, the personal information we hold about you may include the following:

- Name
- Contact details, such as postal address, email address and telephone numbers
- Occupation
- NHS Number
- Family details including next of kin
- GP and referral details
- Visual images, for example CCTV images as part of building security
- Responses to surveys or questionnaires
- Correspondence relating to a complaint or claim
- Your specific information requirements

We will also hold information relating to your medical treatment which is known as a **special category of personal data** under the law, meaning that it must be handled even more sensitively. The special categories of personal information we hold about you may include the following:

- Diagnoses and conditions you have now or have had in the past.
- Symptoms you describe to us and things we find on examination.
- Operations and medical procedures you have had.
- Medications you are taking and when they were prescriptions were issued.
- Allergies and reactions to medication you have taken
- Results of investigations such as blood tests and X-rays
- Letters and discharge summaries from other teams caring for you, such as hospitals.
- Test results.
- Clinical reports and letters.
- Recorded patient consultations and some coded diagnostic information.
- Details of services you have received from us
- Details of your lifestyle and social circumstances
- Details of your nationality, race and/or ethnicity

**Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service**

- Details of your religion
- Details of any genetic data or biometric data relating to you
- Data concerning your sex life and/or sexual orientation.

5. How do we collect your information?

There are a number of ways in which we may collect your personal data. Information may be collected directly from you when:

- You use Circle for the provision of healthcare services
- You correspond with us by letter, email, telephone or social media
- You complete enquiry forms on the Circle website.

In order to provide you with the best treatment possible, we may need to collect your medical records including information about your diagnosis, clinic and hospital visits and medicines administered. This information is provided by other individuals and organisations, including:

- GPs
- Other hospitals, both NHS and private
- Commissioners of healthcare services
- Clinicians (including their medical secretaries).

We may also collect information about you from these third parties, as relevant to your treatment:

- Your current or former employer
- Your family
- External medical experts
- NHS health service bodies
- Government agencies, including the Ministry of Defence, the Home Office and HMRC.

6. Protecting your privacy

We are committed to protecting your privacy and will only process personal information in accordance with the EU General Data Protection Regulation (2018), the Data Protection Act (2018) the Human Rights Act (1998) and the common law duty of confidentiality. We have a company officer called a Caldicott Guardian who is responsible for making sure that we meet our responsibilities as an organisation to look after the data of our patients sensitively and securely.

Circle holds information about you in an electronic health record. All staff accessing your electronic information need to log on to a computer and then log on to the electronic health record.. The storing and recording of health information is important to deliver safe care and it is a legal requirement on the NHS and providers for NHS care to keep health records in line with national retention periods.

A lot of your clinical information is simply stored as free text. This might be a description of the signs and symptoms you are presenting with or plans we have made with you to manage the medical problems you have. From a practical point of view we could not deliver a safe service to you without

**Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service**

storing your clinical data. Our records may include relevant information that you have told us, or information provided on your behalf by relatives or those who care for you and know you well, or from health professionals and other staff directly involved in your care and treatment.

We will not divulge your record to any other patients or family members (except in the case of children under 13) unless you give us permission to do so. Some patients prefer for a family member or friend to act on their behalf. If you wish for someone else to act on your behalf please let us know and we will make arrangements for this to be appropriately documented on your record. You can withdraw this consent at any time but you must let us know if you no longer wish for us to discuss your health with the nominated person.

All information that we hold about you will be held securely and confidentially. We use administrative and technical controls to do this. All of our staff, contractors and committee members receive appropriate and on-going training to ensure they are aware of their personal responsibilities and have contractual obligations to uphold confidentiality, enforceable through disciplinary procedures. We will only use the minimum amount of information necessary about you. Where possible we will use information that does not directly identify you, but when it becomes necessary for us to know or use personal information about you, we will only do this when we have either a legal basis (e.g. in order to provide medical health care) or have your consent.

Multiple staff will have access to your clinical record. For example, our administrative staff access the record to process and file information from the letters the clinician writes, they also chase up medical queries with teams.

Everyone working for the NHS has a legal duty to keep information about you confidential. The NHS Care Record Guarantee provides a commitment that all NHS organisations and those providing care on behalf of the NHS will use records about you in ways that respect your rights and promote your health and wellbeing.

In addition, all staff have to sign a confidentiality agreement and are bound by their contract of employment which does not allow them to disclose any information about your health care to anyone outside the organisation unless it is with another clinical team for the purpose of your health care.

We have chosen to undertake ISO 27001 certification programme whereby we are externally reviewed on an annual basis to ensure that our handling of information is done so safely and in-line with best practice and legislation.

7. How will we communicate with you?

We need to communicate in order to provide you with healthcare services. We may contact you by telephone, SMS, email, and / or post.

To ensure that we provide you with timely updates and reminders in relation to your healthcare, we may communicate with you by telephone, SMS and/or email (where you have provided us with your telephone number and /or email address).

To provide you with your medical information (including test results and other clinical updates), we may communicate with you by email where you have provided us with your email address.

Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service

Please note that although providing your mobile number and email address and stating a preference to be communicated by a particular method will be taken as an affirmative confirmation that you are happy for us to contact you in that manner, we are not relying on your consent to process your personal data in order to correspond with you about your treatment. As set out in Schedule 1 below, processing your personal data for those purposes is justified on the basis that it is necessary to provide you with healthcare services.

8. Surveys

If we have your mobile number or your email address we may use this method of communication to contact you regarding patient surveys which are for the purpose of improving our service and monitoring patient outcomes. We will only contact you regarding patient surveys if you have provided your consent on the survey consent form. You may decide not to complete the surveys and you will have the option to unsubscribe from receiving further survey invitations.

9. Who do we share your information with?

In order to provide you with the appropriate dermatology treatment, we will share data about relevant aspects of your healthcare record with third parties.

We may disclose your information to the third parties listed below for the purposes described in this Schedule 1 of this Privacy Notice. This might include:

- A doctor, nurse or any other healthcare professional involved in your treatment
- Other members of Circle's staff involved in the delivery of your care, like receptionists and administration staff
- Emergency contacts, for example your next of kin or carer
- NHS organisations
- Other private sector healthcare providers
- Your GP
- Your clinician (including their medical secretaries)
- National and other professional research and audit programmes, as detailed in Schedule 1
- Government bodies, including the Ministry of Defence, the Home Office and HMRC
- Our regulators, like the Care Quality Commission
- The police and other third parties where reasonably necessary for the prevention or detection of crime
- Our insurers
- Our third party services providers such as IT suppliers
- Selected third parties in connection with any sale, transfer or disposal of our business
- Anyone else that you ask us to communicate with.

We may communicate with these third parties in a variety of ways including, but not limited to, Email, eRS (electronic referral system), post, fax and telephone.

In order to help us run an efficient and cost effective business, we engage third party companies to help us manage certain parts of our business functions. We will share your information with these companies

Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service

under the strictest data protection arrangements. If you would like further information regarding these third party companies, please contact our DPO.

The Wolverhampton CCG has entered into contracts with other NHS organisations to provide Information Technology (IT) services for us. These include holding and processing data including patient information on our behalf. These services are subject to the same legal rules and conditions for keeping personal information confidential and secure. We are responsible for making sure that staff in those organisations are appropriately trained, that procedures are in place to keep information secure and protect privacy.

You may want us to share health information held about you with others for purposes other than your care. This could include with insurance companies, medical report for a mortgage, life insurance, for immigration purposes, with a solicitor representing you in a personal injury claim. In such cases this will only be done with your signed and explicit consent. We will only share the minimum agreed information.

We will not otherwise share, sell or distribute any of your personal information to any third party without your consent, unless required by law. Data collected will not be sent to countries where the laws do not protect your privacy to the same extent as the law in the UK, unless rigorous checks on the security and confidentiality of that data are carried out in line with the requirements of the EU General Data Protection Regulations (2018).

10. Sharing your personal identifiable data locally for direct care

There are many situations when we will share data about relevant aspects of your care with other clinicians. For example we share data about you:

- To communicate the outcome of a referral and appointment with your General Practitioner.
- If you are referred to another facility for treatment or a procedure.

11. Sharing non personal data for secondary/ non direct care purposes (in Wolverhampton area)

Circle will not share personal identifiable data and/or other confidential data about patients to support the planning of NHS and social care services, without seeking explicit patient consent to do this.

We may share data about patients in a non-personal format (either anonymised* or pseudonymised**) in order to support the planning of NHS and social care services. This data will only be used for health or social planning purposes and not for any other purposes (such as commercial, insurance or marketing purposes). Sharing of such data will be managed in accordance to a formal sharing arrangement and under tight Information Governance controls.

*Anonymisation: is the process of rendering data into a form which does not identify individuals or makes the risk of re-identification sufficiently low in a particular context that does not constitute personal data.

**Pseudonymisation: Pseudonymised data are data in which individuals are disguised by using a unique identifier that does not reveal their 'real world' identity. Provided the organisation holding the

**Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service**

pseudonymised data does not have access to the key to re-identify the subjects, such data are effectively anonymous and does not constitute personal data.

Occasionally, when the Wolverhampton Clinical Commissioning Groups (CCGs) are commissioning new services or working out how effectively we deliver healthcare to you we use your data to answer questions such as:

- Which clinical pathways might we establish in the community to better prevent hospital admissions?
- Auditing the clinical effectiveness of community treatment pathways

You can request that we stop your data being used in such analyses. If you do this we will not pass any of your information onto the analysing partner.

12. Sharing your data for non-direct care nationally

Data about your health can be extracted by NHS Digital. They receive monthly streams from each hospital about your admissions, outpatient attendances and A&E visits, from community services and from mental health care services. They can also receive a flow from the GP data servers.

The main users of this data about you are in fact the Wolverhampton Clinical Commissioning Group (CCG), who commission health care services on your behalf and who monitor the effectiveness of all parts of the healthcare system locally. The CCG receive your NHS Number, but not your name, date of birth or address, and then encode that. However they can use the code (pseudonym) to link your records together to understand your healthcare journey.

However, this data may be used for various purposes such as research. Organisations wishing to access this data must go through a formal process and will not receive personal identifiers such as your name, address or date of birth.

You can object to your data being used in such analyses and we will record it in our information system using specific codes so that NHS Digital can in theory react to this.

Please see Section 19 below for information about how you can opt out of having your personal data used for anything other than to support your direct care.

13. What are the benefits for you as a patient?

Many people think their GP Record is already available to all healthcare professionals involved in their care; but this is not generally the case. It is very common that each health care professional you see keeps a separate electronic record about you. This can mean important information may not be communicated between health services as well as it could be.

Making your GP record available in this way is designed to ensure that the healthcare professionals looking after you have the most relevant up to date information to enable them to provide you with the most appropriate care. It may also mean that you:

**Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service**

- Won't have to repeat unnecessary medical tests
- Won't have to repeat information to several different people
- Avoid the risk of being given drugs that you may be allergic to
- Benefit from more informed clinical decision-making
- Have an better patient experience through effective sharing of your information with the clinician delivering care

You will be asked for your explicit consent before healthcare professional accesses your GP Record. If you say "No" the care professional will not look at your medical information. However there may be exceptional/emergency situations (e.g. if you were unconscious) where a health professional may access your GP record if deemed in your best interests to provide care.

14. What are the benefits for clinical staff?

By enabling 24/7 access to view key medical information when treating patient's clinical staff will:

- No longer have to contact GP practices to obtain patient records
- Have access to patient records when surgeries are closed during evenings, weekends or bank holidays
- Have access to detailed up-to-date medical information in 'real-time'
- Be able to make more informed clinical decisions
- Be in a better position to avoid unnecessary hospital admissions
- Be able to deliver more timely treatment and care

15. International data transfers

We do not store or process information that we collect about you in countries outside the European Economic Area ("EEA").

The only exception to this is data that is collected when you use the AIRMID App to engage in video consultations with our clinical staff or where you use the same App to upload pictures of skin conditions so that our clinicians may view these remotely which saves patients needing to attend a clinic to have such images taken. In this case, the data may be processed in Ireland and other countries including the US, but we have assured ourselves that it is protected at every stage by appropriate security measures.

16. How long do we keep personal information for?

We will only keep your personal information for as long as reasonably necessary to comply with our legal and regulatory obligations. If you would like further information regarding the periods for which your personal information will be stored, please contact our DPO for further details.

17. What are the purposes for which your information is used?

We may 'process' your information for a number of different purposes. The law requires us to have a legal justification for processing your data. The particular justification will depend on the purpose of the proposed use of your data. When the information that we process is classed as "special category of personal information", we must have a specific additional legal justification in order to process your data.

**Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service**

We will rely on the following legal justifications for processing personal data:

- For the purposes of providing you with healthcare and other related services pursuant to our agreement with the Prime Contract between Circle Clinical Services Limited and Wolverhampton Clinical Commissioning Group.
- We have an appropriate business need to process your personal information and such business need does not cause harm to you. Under the law this is called a 'legitimate interest'.
- We have a legal or regulatory obligation to use such personal information.
- We need to use such personal information to establish, exercise or defend our legal rights.
- We have an obligation to use your personal information in the interests of public health.
- You have provided your consent to our use of your personal information.

You will find details of our legal justifications for each of our processing activities in Schedule 1 of this Privacy Notice.

18. Your Rights

Under data protection law you have certain rights in relation to the personal information that we hold about you. These include rights to know what information we hold about you and how it is used. You may exercise these rights at any time by contacting Circle's DPO.

There will not usually be a charge for handling a request to exercise your rights. If we cannot comply with your request to exercise your rights we will usually tell you why. There are some special rules about how these rights apply to health information as set out in the relevant legislation.

If you make a large number of requests or it is clear that it is not reasonable for us to comply with a request then we do not have to respond or we can charge you for responding.

Your rights include:

- *The right to access your personal information*
You are entitled to a copy of the personal information we hold about you and details about how we use it. Please note that in some cases we may not be able to fully comply with your request, for example if your request involves the personal data of another person and it would not be fair to that person to provide it to you.
- *The right to restriction of processing*
In some circumstances, you can ask us to suspend the use of your personal data. Sometimes we won't be able to comply with your request if it is necessary to keep your information in order to perform tasks which are in the public interest, including public health, or for the purposes of establishing, exercise or defending legal claims.
- *The right to data portability*
You can ask us to transfer your personal information to you or to another individual or organisation. The information must be transferred in an electronic format.

**Circle Clinical Services Limited
Patient Privacy Notice
Wolverhampton Dermatology Service**

- *The right to object to processing*
You can ask to us to stop processing your information where we are relying on legitimate interests as the legal ground for processing (when we refer to 'legitimate interests', this means that we have an appropriate business need to process your personal information and this business need does not cause harm to you).
- *The right not to be subject to automatic decisions*
You have a right to not be subject decisions that are made about you by computer alone. Circle does not carry out any automated decision-making in relation to your treatment.
- *The right to withdraw consent*
In some cases we need your consent in order for our use of your personal information to comply with data protection legislation. Schedule 1 sets out instances where we will rely on your consent for the purpose of processing your personal information. You have the right to withdraw your consent at any time. You can do this by contacting Circle's DPO whose details can be found in Section 3 above.
- *The right to complain to the Information Commissioner's Office*
You can complain to the Information Commissioner's Office if you are unhappy with the way that we have managed any of your rights above, or if you think we have not complied with our legal obligations. More information can be found on the Information Commissioner's Office website: <https://ico.org.uk/>. Making a complaint will not affect any other legal rights or remedies that you have.

19. National Data Opt-Out Programme

The NHS is determined to give you as much choice as possible over how your personal data is used. Your data is mostly used to support the direct provision of healthcare to you as a patient, however, there are occasions (as discussed in Section 12 above) where your data could be used to support the wider provision of health and research about health. To find out more about the wider use of confidential personal information and to register your choice to opt-out if you do not want your data to be used in this way, visit www.nhs.uk/my-datachoice. If you do choose to opt out you can still consent to your data being used for specific purposes.

20. Updates to this Privacy Notice

We may update this Privacy Notice from time to time to ensure that it remains accurate. If these changes result in any material difference to the manner in which we process your personal data then we will provide you with an updated copy of the Policy. This Privacy Notice was last updated in March 2020.

21. Complaints or questions

Circle aims meet the highest standards when collecting and using personal information. For this reason, we take any complaints we receive very seriously. We encourage people to bring concerns to our attention if they think that our collection or use of information is unfair, misleading or inappropriate. We would also welcome any suggestions for improving our procedures. You can contact Circle's DPO with any complaints or questions.

SCHEDULE 1
ABOUT THE INFORMATION WE COLLECT AND HOLD

In the table below we have set out the individual purposes for which we will process your personal information and the legal justification for doing so. In most instances, we are also required to identify an additional legal justification where we are processing special categories of personal information (e.g. medical information). Beside each legal justification, we have cited the relevant article of the EU General Data Protection Regulations (GDPR).

Purpose for processing personal information	Description	Legal justification for processing personal information	Additional legal justification for processing special categories of personal information
To perform screening and regulatory checks on individuals before they become CIC patients.	We perform background checks in order to ensure that you are eligible to become a CIC patient.	Processing is necessary for compliance with a legal obligation to which we are subject (Article 6.1.c	Processing is necessary for the management of healthcare (Article 9.2.h)).
To provide you with healthcare services.	CIC is a healthcare provider and we need your personal information in order to deliver that service.	Processing is necessary for compliance with a legal obligation to which we are subject (Article 6.1.c	Processing is necessary for the provision of healthcare (Article 9.2.h.
To provide you with timely updates and reminders about your healthcare.	We need to be able to get in touch with you about your healthcare arrangements, for example, notifying you of upcoming appointments. We may contact you via telephone, email and/or SMS.	Processing is necessary for compliance with a legal obligation to which we are subject (Article 6.1.c	Processing is necessary for the purposes of medical diagnosis or the provision of healthcare (Article 9.2.h
To carry out local clinical audits.	Circle may process your personal data as part of local clinical audits. These audits assess outcomes for patients and are used to identify improvements we can make to patient care. This has an indirect benefit to the population as a whole. You can object to us using your personal data for this purpose at any time. If you would like to raise an	Processing is necessary for the purposes of the management of healthcare. Article 6.1.c.	Processing is necessary for the management of healthcare Article 9.2.h

Notice**

	objection please contact our Data Protection Officer using the details provided in Section 3.		
For national clinical audits.	<p>We regularly share information with the National Clinical Audit programme and other quality improvement programmes. A list of these programmes can be found at http://www.hqip.org.uk/a-z-of-nca/</p> <p>When a programme has received statutory approval, we will not require your consent for inclusion. If a programme has not received statutory approval, you will be asked to consent before your information is processed. You can object to us using your personal data for this purpose at any time. If you would like to raise an objection please contact our Data Protection Officer using the details provided in Section 3.</p>	Processing is necessary for the purposes of the management of healthcare. Article 6.1.c.	Processing is necessary for the management of healthcare Article 9.2.h
For medical research.	<p>Circle participates in medical research programmes and shares patient data with ethically approved third party organisations.</p> <p>Some research programmes have received statutory approvals such that consent may not be required to process patient information. When consent is required, then either the research organisation or we will contact you before we process your information in this way.</p>	We have a business need, or 'legitimate interest' to contribute to medical research and such business need does not cause harm to you (Article 6(f)).	Processing is necessary for statistical and scientific purposes in the public interest (Article 9 (2)(j)).

**Circle Clinical Services Limited Patient Privacy
Notice**

Resolving patient queries or complaints.	Occasionally patients may make enquiries or complaints to Circle. In order to investigate and resolve these matters properly, we need to access your personal information.	We have a business need, or 'legitimate interest' to process your personal information and such business need does not cause harm to you (Article 6(f)).	The processing is necessary in order for us to establish, exercise or defend our legal rights (Article 9(2)(f)).
Communicating with other healthcare professionals about your treatment.	Other healthcare professionals may need to know about your treatment at Circle in order to provide you with appropriate care in the future. Examples of third parties who may need access to your information can be found at Section 11.	We have a business need, or 'legitimate interest' to process your personal information and such business need does not cause harm to you (Article 6(f)).	Processing is necessary for the purposes of medical diagnosis or the provision of healthcare (Article 9 (2)(h)).
Complying with our legal or regulatory obligations, and defending or exercising our legal rights.	Circle is subject to a wide range of legal and regulatory responsibilities. We may be required to provide personal information, and in which case we will have a legal responsibility to do so. From time to time, Circle and its clinicians are also the subject of legal actions or complaints. In order to fully investigate and respond to those actions, it is necessary to process your personal information.	The processing is necessary in order for us to comply with our legal obligations (Article 6(c)).	The processing is necessary for establishing, exercising or defending legal claims (Article 9(2)(f)).
For the health and safety of others	On rare occasions, we must share your data in the public interest. For example, to report an infectious disease like meningitis or measles. Disclosures of personal information will only take place where there is an overriding public interest which outweighs Circle's duty of confidentiality.	Processing is necessary for the performance of a task carried out in the public interest (healthcare) (Article 6(d)).	Processing is necessary for reasons of substantial public interest in the area of public health (Article 9(2)(i)).
