

# 2018 Gender Pay Gap report

Circle Hospital Bath Ltd (“Bath”)

## Introduction

The Equality Act 2010 (Gender Pay Gap Information) Regulations 2017 require that all UK organisations employing 250 or more employees publicly report their gender pay gap (GPG).

The GPG figures provided herein for Circle Bath Ltd (“Bath”) are based on hourly rate of pay as at the snapshot date of 5 April 2018 and bonuses paid during the tax year ending on 5<sup>th</sup> April 2018 for all staff on a contract of employment and bank / “as and when” workers on Circle payroll.

## Mean and Median Gender Pay Gap Calculations

The GPG is defined as the difference between the hourly rate of pay received by male and female staff, respectively.

	Bath			
	2017		2018	
	Mean	Median	Mean	Median
Male hourly rate	£17.23	£14.18	£15.94	£13.04
Female hourly rate	£14.22	£11.47	£15.02	£12.35
Gender Pay Gap %	17.47%	19.09%	5.76%	5.27%

The substantial decreases in the GPG on both a mean and median basis mainly reflect the departure of three employed male medical consultants from the business. Our GPG may fluctuate over time, however it is currently lower than the 2018 UK national mean of 17.9 per cent.

## Quartile pay groups

The charts below show the proportion of males and females in each quartile pay band, obtained by ordering hourly rates of pay from highest to lowest, and grouping them into four equal quartiles.

The bottom three quartiles broadly reflect the organisational gender split (79% female and 21% male). The proportion of females and males in each quartile remains broadly the same as in 2017. The upper quartile reflects an increase in the percentage of male staff in roles

attracting higher hourly rates of pay and a disproportionate number of female in lowering pay roles in the business.

## Gender Bonus Pay Gap

The gender bonus pay gap is the difference in bonus pay that male and female employees received during the 12 month period ending on 5 April 2018. Bonus pay includes non-salary compensation received from Circle (e.g., retention bonus) or in connection with an employee’s employment with Circle (e.g., share scheme).

	Bath	
	2017	2018
Mean Gender Bonus Gap	44.05%	77.78%
Median Gender Bonus Gap	10.86%	16.52%
% Male receiving a bonus	4.62%	61.67%
% Female receiving a bonus	4.53%	58.01%

The figures for 2018 are impacted by the sale of shares by employees in connection with the acquisition of Circle Holdings plc in 2017. The Circle share scheme was closed in 2017.

## Conclusions

Circle supports equality through fair pay. We are committed to paying men and women equally for doing equivalent jobs across our organisation, and we regularly undertake internal audits to ensure this commitment is reflected in practice.

The main reason for our GPG is an imbalance of male and female staff in particular roles. Higher paying roles (e.g. employed medical consultants) are currently predominantly filled by men in disproportion to the overall gender split across the business.

At the same time, female employees disproportionately fill middle salary band roles (e.g., nurses) and lower salary band roles (e.g. administration and healthcare assistant).

Whilst Circle would like to see greater gender balance in the organisation’s higher salary band roles, we recognise that the medical consultant workforce in the UK has a greater proportion of males to females, which skews the gender balance of the pool of available applicants for such roles. During the last decade, there has been a notable increase in the proportion of women entering medical school and a greater proportion of men entering the nursing profession. We expect that, over time, that these trends will narrow the current gender pay gap in the healthcare sector.

# 2018 Gender Pay Gap report

Circle Hospital Bath Ltd (“Bath”)

Circle has ambitious plans to attract, recruit, retain and progress employees of both genders, as demonstrated by our inclusive recruitment, promotion and remuneration practices. A key element of Circle’s talent management and succession planning is to continue to support flexible working arrangements and refresh management and leadership training programmes to support development and career progression for staff of all genders.

## Declaration

I confirm that our data have been calculated according to the requirements of the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017. The figures above are accurate and in line with payments made by Circle up to and including April 2018.
