

GP & Clinical staff

Lunch and learn

Five ways lunchtime talks can help your practice

1. No need to travel, as our consultants will visit your practice
2. Consultants across a wide range of specialities are available
3. We provide a freshly prepared lunch
4. Attendance certificates are provided to be used towards your CPD programme
5. Our talks are completely free and timings are flexible to suit you.

“Thank you for all your help, it was completely a success, lots learnt, faces and names put together, better patient care and educational certificates thrown in!” Dr Rebecca Hodson, Widcombe Surgery

To arrange a talk please email Victoria at gp.bath@circlehealth.co.uk or call **01761 422288**
